Monroe County Employees
Retirement System
Monroe, Michigan

Re: Monroe County Employees Retirement System Actuarial Valuation as of December 31, 2013

Dear Board Members:

The results of the December 31, 2013 Annual Actuarial Valuation of the Monroe County Employees Retirement System are presented in this report.

This report was prepared at the request of the Board and is intended for use by the Retirement System and those designated or approved by the Board. This report may be provided to parties other than the System only in its entirety and only with the permission of the Board.

The purpose of the valuation is to measure the System's funding progress, to determine the employer contribution rate for the fiscal year ending December 31, 2015, and to determine the actuarial information for Governmental Accounting Standards Board (GASB) Statement No. 25.

Mark Buis and James D. Anderson are Members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

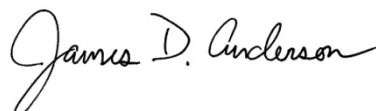

Please see the following page for additional disclosures required by the Actuarial Standards of Practice.

To the best of our knowledge the information contained in this report is accurate and fairly presents the actuarial position of the Monroe County Employees Retirement System as of the valuation date. All calculations have been made in conformity with generally accepted actuarial principles and practices, and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.

Respectfully submitted,

Mark Buis, FSA, EA, MAAA

James D. Anderson, FSA, EA, MAAA

MB:dj

DISCLOSURES REQUIRED BY ACTUARIAL STANDARDS OF PRACTICE

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law. Due to the limited scope of the actuary's assignment, the actuary did not perform an analysis of the potential range of such future measurements.

This report should not be relied on for any purpose other than the purpose described in the primary communication. Determinations of the financial results associated with the benefits described in this report in a manner other than the intended purpose may produce significantly different results.

The signing actuaries are independent of the plan sponsor.

The valuation was based upon information furnished by the County, concerning Retirement System benefits, financial transactions, plan provisions and active members, terminated members, retirees and beneficiaries. We checked for internal and year-to-year consistency, but did not otherwise audit the data. We are not responsible for the accuracy or completeness of the information provided by the County.

The developed findings included in this report consider data or other information through December 31, 2013.

SECTION A

EXECUTIVE SUMMARY

1. Required Total Contributions - Fiscal Year Beginning January 1, 2015

The computed employer contribution rates for basic retirement benefits are as follows:

Division	Computed Employer Contribution Rates	
	% of Payroll	\$ Based on 12/31/13 Payroll
General County	26.19 %	\$3,525,854
County Agency	37.77	478,190
Sheriff's Office	29.40	2,606,686
County Library	14.00	700,160
Road Commission	22.72	951,102
Mental Health	N/A	609,357
Central Dispatch	21.59	240,114

For detail please see page B-2.

Please note that these are the total contribution rates before adjustment for member contributions. The member contributions need to be subtracted to obtain the net employer contribution. Also note that the Mental Health division is now closed to new hires. As such, dollar contribution amounts are shown instead of contribution rates.

The pensions provided by the Retirement System are valuable benefits. As covered members earn additional credit toward pensions and move closer to retirement, the System's liabilities grow. Employer contributions are required to pay for the increases in liabilities. All groups now have employer contribution requirements as prior overfunding has generally been eliminated.

2. Contribution Comparison

Required contributions have changed from the last valuation as follows:

Division	Computed Contributions	
	Actual 12/31/12	Actual 12/31/13
General County	\$3,405,549	\$3,525,854
County Agency	443,264	478,190
Sheriff's Office	2,566,722	2,606,686
County Library	628,542	700,160
Road Commission	935,032	951,102
Mental Health	627,471	609,357
Central Dispatch	<u>206,597</u>	<u>240,114</u>
Total	8,813,177	9,111,463

3. Reasons for Change

There are three general reasons why contribution rates change from one valuation to the next. The first is a change in the benefits or eligibility conditions of the Plan. The second is a change in the valuation assumptions used to predict future occurrences. The third is the effect of differences during the year between the Plan's actual experience and what the assumptions predicted.

There were no changes in benefits or actuarial assumptions or methods since the last actuarial valuation.

The rate changes are primarily due to Plan experience during the year as discussed below.

4. 2013 Plan Experience

Plan experience during the year was unfavorable for most groups with an overall experience gain/(loss) of \$(8,743,222). The gain/loss development is shown on page B-7 separately for each division.

All groups experienced unfavorable investment experience. On a market value basis, investment results were more favorable than expected, with approximately a 11.9% rate of return (see page C-23). However, under the asset valuation method, investment gains and losses are spread over a 7-year period. Partial recognition of this year's gain was combined with the continued phase-in of investment gains and losses from prior years resulting in a recognized rate of return of 4.1%, leading to a loss. Additionally, there was an overall non-investment loss primarily due to the purchase of service for many members.

Investment Gain/(Loss)	\$ (5,457,005)
Non-Investment Gain/(Loss)	<u>(3,286,217)</u>
Gain/(Loss) from all causes	\$ (8,743,222)

5. 2013 Funding Position

This year the actuarial value of assets represents 77% of accrued liabilities; last year the ratio was 79%.

As of December 31, 2013 valuation assets exceed the market value of assets by \$5,904,617. This is the amount of past asset losses not yet realized in the valuation. It will be fully recognized over the next six years putting upward pressure on the contribution rates. On a market value basis, the funding position of the Plan is 74%.

6. Retiree Reserve Balance

For the General County, County Agency, Sheriff's Office, Central Dispatch and Mental Health divisions, the accrued liabilities for members who have already retired and their beneficiaries are larger than the reported balance of the retiree reserve accounts. Transfers will be necessary to balance the retiree reserves with the retiree liabilities. Details regarding the transfers are shown in Comment A of Section B.

7. Recommendations

We recommend that the Board authorize the transfers described in Comment A of Section B of this report. We also recommend the amortization period be closed as described in Comment E.

8. Conclusion

In the short-term, employer contributions are expected to increase as the unfavorable investment returns are working through the asset smoothing. If the markets do not fully rebound, employer contributions will continue to rise.

SECTION B

VALUATION RESULTS, COMMENTS AND COMPARABLE SCHEDULES

Financial Objective

The financial objective of the Retirement System is to establish and receive contributions, expressed as a percentage of active member payroll, which will remain approximately level from year to year and will not have to be increased for future generations of citizens. This objective is stated in the Retirement System Resolution.

Your annual actuarial valuations determine how well the objective is being met.

The Board of Trustees of the Monroe County Employees Retirement System confirms that the System provides for payment of the required employer contribution as described in Section 20m of Michigan Public Act No. 728.

Contribution Rates

The Retirement System is supported by contributions from the participating employers and from some of the members and by the investment income earned on System assets. The employers provide an actuarially determined contribution, the amount needed to meet the financial objective.

Contributions cover both (i) normal cost, and (ii) the financing of the unfunded accrued liability, if any, over a period of future years. The normal cost is the portion of System costs allocated to the current year by the valuation method described in Section D. The unfunded accrued liability is the portion of System costs not covered by present System assets and future normal costs.

The contribution requirements for the fiscal year beginning January 1, 2015 are presented on pages B-2 and B-3.

**Contributions to Provide Benefits
December 31, 2013 Valuation**

Contributions	% of Active Payroll						
	General County	County Agency	Sheriff's Office	County Library	Road Comm.	Mental Health	Central Dispatch
Normal cost of benefits:							
Age & service	9.99 %	8.59 %	13.26 %	9.48 %	10.95 %	\$490,580	12.63 %
Disability	0.70	0.90	0.82	0.43	1.09	30,045	0.85
Death-in-service	0.35	0.36	0.34	0.25	0.29	16,900	0.36
Future refunds	0.43	0.00	0.24	0.00	0.37	-	0.24
Administrative expenses	0.65	0.65	0.65	0.65	0.65	30,515	0.65
Totals	12.12	10.50	15.31	10.81	13.35	568,040	14.73
Amortization of UAL	14.07	27.27	14.09	3.19	9.37	41,317	6.86
Computed Employer Rate	26.19	37.77	29.40	14.00	22.72	609,357	21.59

Please note that these are the total contribution rates before adjustment for member contributions. The member contributions need to be subtracted to obtain the net employer contribution. Also note that the Mental Health division is now closed to new hires. As such, dollar contribution amounts are shown instead of contribution rates.

Effective for the 12/31/2013 valuation, the unfunded liability for the Mental Health division is amortized over an open 20-year period, as this group is less than 100% funded on a funding valuation basis. Effective for the 12/31/2012 valuation, the Mental Health division is closed to new hires. A level dollar amortization is now being used. Unfunded liabilities for all other divisions are amortized over an open 20-year period, per the 6/26/2006 Board Meeting.

The procedure for determining dollar contribution amounts is shown on page B-3.

Page B-4 displays the unfunded accrued liabilities or asset surpluses that are amortized by the contribution rates shown above.

Converting Contribution Rates to Dollar Amounts

For any period of time, the percent-of-payroll contribution rates must be converted to dollar amounts. We recommend one of the following procedures.

- (1) Contribute dollar amounts for a period, which are equal to the employer's percent-of-payroll contribution requirement multiplied by the covered active member payroll for the period. Adjustments should be made as necessary to exclude items of pay that are not covered compensation for Retirement System benefits and to include non-payroll payments that are covered compensation.

- (2) Contribute the dollar amounts recommended for each valuation group.

The Mental Health Division is now closed to new hires. Because of the declining payroll, option 2 should be contributed.

Timing of Contribution Payments

The contributions in this report anticipate regular payments throughout the year. Examples would be at each payroll date or in 12 monthly installments. If the employer contribution pattern is significantly different, an adjustment to the costs may be appropriate. For example, a lump sum contribution at the beginning of the year is available for investment throughout the year and, therefore, ought to be somewhat smaller than 12 monthly payments. Similarly, a lump sum contribution at the end of the year will not generate any investment income that year and so must be greater than 12 monthly payments.

Determination of Unfunded Accrued Liability

	General County	County Agency	Sheriff's Office	County Library	Road Comm.	Mental Health	Central Dispatch	Totals
A. Accrued Liability								
1. For retirees and beneficiaries	\$ 64,130,590	\$ 8,376,166	\$ 35,319,923	\$ 7,863,752	\$ 14,272,372	\$ 11,009,378	\$ 2,057,513	\$ 143,029,694
2. For vested terminated members	5,128,915	0	778,803	400,946	531,644	3,999,935	0	10,840,243
3. For present active members								
a. Value of expected future benefit payments	47,262,522	4,491,344	41,132,013	13,020,891	17,932,117	15,015,433	4,060,030	142,914,350
b. Value of future normal costs	12,429,400	1,138,324	12,690,776	4,113,100	4,321,393	5,071,816	1,839,609	41,604,418
c. Active member liability: (a) - (b)	34,833,122	3,353,020	28,441,237	8,907,791	13,610,724	9,943,617	2,220,421	101,309,932
4. Total	104,092,627	11,729,186	64,539,963	17,172,489	28,414,740	24,952,930	4,277,934	255,179,869
B. Valuation Assets	76,852,485	6,763,700	46,564,485	14,874,764	22,772,404	24,500,071	3,180,724	195,508,633
C. Unfunded Accrued Liability: (A.4) - (B)	27,240,142	4,965,486	17,975,478	2,297,725	5,642,336	452,859	1,097,210	59,671,236
D. Funded percentage: (B)/(A.4)	73.8%	57.7%	72.1%	86.6%	80.1%	98.2%	74.4%	76.6%

Comments

Comment A: We developed the value of anticipated future benefit payments to retired members and their beneficiaries. We then compared this accrued liability to the reported value of the retirement reserve account. The figures below compare the retired liabilities and reserves for each division.

Division	Accrued Liability	Retiree Reserve	Unfunded Retiree Liability
General County	\$64,130,590	\$61,670,493	\$ 2,460,097
County Agency	8,376,166	7,654,511	721,655
Sheriff's Office	35,319,923	33,404,986	1,914,937
County Library	7,863,752	8,207,496	(343,744)
Road Commission	14,272,372	14,304,759	(32,387)
Mental Health	11,009,378	9,988,751	1,020,627
Central Dispatch	2,057,513	1,813,240	244,273

Amounts should be transferred from the employer reserves to the retiree reserves to cover the unfunded amount for each division.

Comment B: Overall experience during 2013 was unfavorable. The gain/(loss) determination by division is on page B-7. The determination of the investment gain/loss is shown on page B-8.

Comment C: This valuation considers only the basic retirement benefits provided by the Retirement System. The retiree health benefits provided to County employees are not considered in this valuation.

Comments (Concluded)

Comment D: On December 30, 2002 Michigan Public Act 728 became effective. This Act sets new standards for all Michigan State and Local government retirement systems. In particular, the Act requires that supplemental actuarial analysis be performed by the System's actuary (including an analysis of the long term costs associated with any proposed pension benefit change) and provided to the Retirement Board and the decision-making body that will approve the proposed pension benefit change. This analysis is required at least 7 days before a proposed pension benefit change is adopted. There are additional requirements related to the confirmation of receipt by the System of the required employer contributions.

Comment E: The unfunded actuarial liability is currently amortized over an open 20 year period. We recommend that this policy be changed to a closed 20 year period effective with the December 31, 2014 actuarial valuation, whereby the remaining period decreases by 1 year each year (similar to a mortgage). This will help improve the funded position of the plan and will also be advantageous for the new GASB reporting requirements. Under the new GASB requirements, systems using an open (or rolling) amortization period typically will need to report liabilities using a lower discount rate than they would if they used a closed amortization period.

Development of Experience Gain/(Loss) Year Ended December 31, 2013

Actual experience will never (except by coincidence) exactly match assumed experience. It is hoped that gains and losses will cancel each other over a period of years but sizable year-to-year fluctuations are common. Detail on the derivation of the actuarial gain (loss) is shown below:

	Gain/Loss for 2013						
	General County	County Agency	Sheriff's Office	County Library	Road Commission	Mental Health	Central Dispatch
(1) UAAL* at start of year	\$23,172,924	\$4,085,458	\$ 15,719,898	\$ 1,957,460	\$5,235,420	\$(239,921)	\$ 699,197
(2) Normal cost	1,585,739	134,495	1,267,314	507,698	520,564	660,488	156,808
(3) Actual contributions	3,101,051	463,016	2,295,231	443,019	962,795	525,095	180,878
(4) Interest accrual	1,569,675	274,615	1,064,827	139,260	351,178	(12,110)	48,111
(5) Expected UAAL before changes: (1) + (2) - (3) + (4)	23,227,287	4,031,552	15,756,808	2,161,399	5,144,367	(116,638)	723,238
(6) Change from benefit changes	0	0	0	0	0	0	0
(7) Change from revised assumptions	0	0	0	0	0	0	0
(8) Change from revised asset method	0	0	0	0	0	0	0
(9) Expected UAAL after changes: (5)+(6)+(7)-(8)	23,227,287	4,031,552	15,756,808	2,161,399	5,144,367	(116,638)	723,238
(10) Actual UAAL at end of year	27,240,142	4,965,486	17,975,478	2,297,725	5,642,336	452,859	1,097,210
(11) Gain/(loss): (9) - (10)	(4,012,855)	(933,934)	(2,218,670)	(136,326)	(497,969)	(569,497)	(373,972)
(12) Gain/(loss) as percent of actuarial accrued liability at start of year	(4.01)%	(8.62)%	(3.61)%	(0.82)%	(1.79)%	(2.39)%	(9.74)%

* *Unfunded Actuarial Accrued Liability.*

Development of Valuation Investment Gain (Loss)
Year Ended December 31, 2013
(Total System Assets)

The valuation assumes a 7.0% return on valuation assets. Net investment return in excess of 7.0% represents a gain. If net investment return falls short of 7.0%, the difference between an income of 7.0% and the net return represents a loss.

(1) Net 2013 Valuation Investment Income	\$ 7,893,049
(2) Average Valuation Assets	190,715,062
(3) Expected Investment Income: (.07) x (2)	13,350,054
(4) Effect of Revised Asset Method	0
(5) Gain (Loss): (1) - (3) - (4)	(5,457,005)
(6) 2013 Rate of Return on Valuation Assets	4.14%

Please note that this analysis uses asset values and investment income as defined for the actuarial valuation. It may not, therefore, be appropriate as a measure of manager performance.

Financial Objective Tests

Testing how well the financial objective is being met can be done in many ways. There is no single all-encompassing test.

Contribution rates designed to remain level will do so, as long as:

- (1) the indicated contributions are paid on a timely basis, and
- (2) experience, as it develops, is in accord with the assumptions used in the calculations.

Of course changes in benefits or assumptions will cause discontinuities. But, if these two conditions are satisfied, and the System continues indefinitely, the ultimate test will be met -- the System will be able to meet all promised benefit payments when due.

Since nothing continues in its projected pattern indefinitely, short-term tests of achievement are appropriate. One such test is a comparison of the System's present assets to:

- (1) benefit values attributable to present retired members and beneficiaries;
- (2) benefit values attributable to vested terminated members;
- (3) benefit values allocated to present active members on account of service already rendered (the value of benefits that would be incurred by the System if future service was honored solely for the purpose of qualifying for a benefit and determining final average compensation).

In a system that has been using level percent-of-payroll financing discipline, items (1) and (2) will be fully covered by present assets except in unusual demographic or benefit development circumstances. Item (3) will only be fully covered if the plan's liabilities are at least 100% funded.

Liabilities, Assets and Funded Percents

Retirement System amended.

* Revised actuarial assumptions or method.

\$ Prior to 2001 the County Agency group was included with the General group.

& The Mental Health division closed June 1, 2012 as such a level dollar amount should be contributed.

SECTION C

SUMMARY OF BENEFIT PROVISIONS AND VALUATION DATA

**Brief Summary of Benefit Provisions
(December 31, 2013)**

Eligibility	Amount
REGULAR RETIREMENT	
General, Library, Road Commission, Mental Health, Sheriff's Office and Central Dispatch.	See Page C-3 for details. Highest 3 consecutive years out of last 10 for all groups. Maximum Benefit: 75% of final average earnings.
DEFERRED RETIREMENT	
8 or more years of service.	Computed as a regular retirement but based upon service and final average earnings at termination date.
NON-DUTY DEATH-IN-SERVICE	
15 years of service or age 60 with 10 years of service.	Computed as a regular retirement but actuarially reduced in accordance with a 100% joint and survivor election.
DUTY DEATH-IN-SERVICE	
No age or service requirements.	Computed as regular retirement but computed as if the member had at least 15 years of service. Must be in receipt of worker's compensation.
NON-DUTY DISABILITY	
10 or more years of service.	Computed as a regular retirement.

**Brief Summary of Benefit Provisions
(December 31, 2013)**

Eligibility	Amount
--------------------	---------------

DUTY DISABILITY

No age or service requirements.

Computed as a regular retirement benefit but computed as if the member had at least 10 years of service.

POST-RETIREMENT INCREASES

Beginning January 1, 1994 for the Road Commission Local 543 members, a program of discretionary annual increases was begun.

Other payments.

The System may from year to year pay a “13th check”. The 13th check will be based upon investment earnings that are in excess of the assumed level on assets to cover retiree liabilities. Only Road Commission has this provision within the pension fund beginning in 2012.

MEMBER CONTRIBUTIONS

Please see page C-3 for summary description. See Plan document for details.

SECTION D

**FINANCIAL PRINCIPLES, ACTUARIAL VALUATION
PROCESS, ACTUARIAL COST METHODS, AND
ACTUARIAL ASSUMPTIONS**

Valuation Methods

Actuarial Cost Method. Normal cost and the allocation of benefit values between service rendered before and after the valuation date were determined using an individual entry-age actuarial cost method having the following characteristics:

- i) the annual normal costs for each individual active member, payable from the hire date to the date of retirement, are sufficient to accumulate to the value of the member's benefit earned.
- ii) each annual normal cost is a constant percentage of the member's year by year projected covered pay.

Asset Valuation Method. Last year's valuation assets are increased by contributions and regular investment income and reduced by refunds, benefit payments and expenses. The difference between the actual investment return and the expected return is phased-in over a 7-year period. The result must be no more than 30% from the market value of assets for the December 31, 2008 valuation. The percentage that the valuation assets can differ from the market value of assets will decrease each subsequent year by 2% until a 20% corridor is reached. In the December 31, 2013 valuation the corridor is 20%.

Financing of Unfunded Actuarial Accrued Liabilities. Unfunded actuarial accrued liabilities were amortized by level (principal & interest combined) percent-of-payroll contributions (level dollar for Mental Health Division) as follows:

Divisions that are underfunded – 20-year open amortization

Divisions that are over-funded – 10-year open amortization

Actuarial Assumptions Used for the Valuation

Investment Return (net of investment expenses).

3.0% per year in excess of pay inflation. If pay inflation matches the assumption of 4.0%, this implies a 7% rate of return.

This assumption is used to equate the value of payments due at different points in time and was first used for the December 31, 2002 valuation and re-evaluated for the December 31, 2008 valuation. Approximate rates of investment return, for the purpose of comparisons with assumed rates, are shown below. Actual increases in average active member pay are also shown for comparative purposes.

	Year Ended December 31					5-Year Average*
	2013	2012	2011	2010	2009	
Rate of Investment Return	4.1%	3.6%	3.5%	4.7%	4.5%	4.1%
Increase in Average Pay	(1.5)	1.9	1.9	(0.1)	2.2	0.9%
Real Rate of Return	5.6	1.7	1.6	4.8	2.3	3.2

* Compound rate of increase.

The nominal rate of return was computed using the approximate formula $i = I$ divided by $1/2 (A + B - I)$, where I is actual investment income net of expenses, A is the beginning of year asset value, and B is the end of year asset value.

These rates of return should not be used for measurement of an investment advisor's performance or for comparisons with other systems. The rate of return on member contribution was assumed to be 5.0%.

Pay Projections. These assumptions are used to project current pays to those upon which benefits will be based. The assumptions were first used for the December 31, 2008 valuation.

Annual Rate of Pay Increases for Sample Ages							
Years of Service	Base (Economic)	Merit and Longevity			Total		
		General, Library, County Agency, Sheriff's Office, Cent. Dispatch	Road Commission	Mental Health	General, Library, County Agency, Sheriff's Office, Cent. Dispatch	Road Commission	Mental Health
1	4.0%	2.8%	2.0%	7.0%	6.8%	6.0%	11.0%
2	4.0	2.8	2.0	4.0	6.8	6.0	8.0
3	4.0	2.8	2.0	4.0	6.8	6.0	8.0
4	4.0	2.8	2.0	4.0	6.8	6.0	8.0
5	4.0	2.8	0.5	4.0	6.8	4.5	8.0
6	4.0	2.8	0.5	4.0	6.8	4.5	8.0
7	4.0	2.8	0.5	0.5	6.8	4.5	4.5
8	4.0	2.8	0.5	0.5	6.8	4.5	4.5
9+	4.0	0.5	0.5	0.5	4.5	4.5	4.5

Actual average pay has increased at the following rates:

Year Ended December 31					5-Year Average
2013	2012	2011	2010	2009	
(1.5)%	1.9%	1.9%	(0.1)%	2.2%	0.9%

* Compound rate of increase.

The mortality table (a risk assumption) used was the RP-2000 Mortality Table for males and females, projected 20 years using scale AA. The assumptions were first used for the December 31, 2008 valuation.

Sample Ages	Single Life Retirement Values			
	Value at Retirement of \$1 Monthly for Life		Future Life Expectancy (Years)	
	Men	Women	Men	Women
50	\$152.58	\$154.61	32.77	34.63
55	144.15	146.80	28.04	29.88
60	133.48	137.08	23.47	25.31
65	120.71	125.53	19.17	21.02
70	106.09	112.39	15.22	17.06
75	89.18	97.66	11.58	13.47
80	71.11	81.35	8.42	10.23

This assumption is used to measure the probabilities of members dying before retirement and the probabilities of each pension payment being made after retirement. For disability retirements, the RP-2000 Mortality Table projected 20 years using scale AA, was used with a 3-year set forward.

The ***Rates of Retirement***. (A risk assumption) used to measure the probabilities of an eligible member retiring during the next year were as follows:

Retirement Ages	Percent of Active Members Retiring within Next Year		
	General County, County Agency, Mental Health and County Library	Sheriff's Office & Central Dispatch	Road Commission
50		18.8 %	
51		18.8	
52		18.8	
53		25.0	
54		25.0	
55	37.5 %	25.0	12.5 %
56	12.5	25.0	12.5
57	12.5	12.5	25.0
58	12.5	6.3	25.0
59	12.5	6.3	25.0
60	18.8	6.3	50.0
61	18.8	6.3	50.0
62	18.8	6.3	50.0
63	18.8	6.3	50.0
64	6.3	6.3	50.0
65	6.3	100.0	100.0
66	6.3		
67	6.3		
68	6.3		
69	6.3		
70	100.0		

These rates were first used for the December 31, 2008 valuation for all groups.

Administrative Expenses. 0.65% of payroll.

Active Member Group Size. The number of active members was assumed to remain constant, except Mental Health which is closed to new hires. This assumption is unchanged from previous valuations.

Rates of separation from active membership (a risk assumption) were as follows:

(Rates do not apply to members eligible for regular retirement and do not include separation on account of death or disability.) This assumption measures the probabilities of members remaining in employment. These rates were first used for the December 31, 2008 valuation for all groups.

**Sample Rates of Separation from Active Employment
Before Retirement, Death or Disability**

Sample Ages	% of Active Members Separating within Next Year			
	Years of Service	General County, County Agency, Mental Health and County Library	Sheriff's Office & Central Dispatch	Road Commission
ALL	0	15.00%	15.00%	15.00%
	1	13.00	9.00	12.00
	2	12.00	7.00	10.50
	3	8.00	7.00	9.00
	4	8.00	7.00	9.00
25	5 & Over	7.65	3.00	6.00
30		7.65	3.00	3.00
35		6.80	2.00	3.00
40		5.10	2.00	3.00
45		3.40	1.75	2.00
50		3.40	1.00	2.00
55		0.85	0.50	1.00
60	0.85	0.00	1.00	

Rates of Disability. These rates represent the probabilities of active members becoming disabled.

Sample Ages	Number of Disabilities Per 100 Eligible Members	
	Men	Women
20	0.09%	0.08%
25	0.09	0.08
30	0.09	0.08
35	0.09	0.08
40	0.24	0.28
45	0.32	0.32
50	0.59	0.45
55	1.07	0.61
60	1.70	0.81

85% of the disabilities were assumed to be non-duty related. For the Sheriff's Office and Road Commission employees, 50% of the disabilities are assumed to be duty related.

Miscellaneous and Technical Assumptions

Marriage Assumption:	100% of males and 100% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses.
Pay Increase Timing:	On the valuation date.
Decrement Timing:	Decrements of all types are assumed to occur mid-year.
Eligibility Testing:	Eligibility for benefits is determined using the age nearest birthday and the service nearest whole year on the anniversary of the valuation date.
Benefit Service:	Exact fractional service is used to determine the amount of benefit payable.
Decrement Relativity:	Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.
Decrement Operation:	Disability and death-in-service decrements do not operate during the first 5 years of service. Disability and withdrawal do not operate during retirement eligibility.
Normal Form of Benefit:	The assumed normal form of benefit is straight life form.
Loads:	None.
Incidence of Contributions:	Contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made. New entrant normal cost contributions are applied to the funding of new entrant benefits.

SECTION E

FINANCIAL DISCLOSURE IN CONFORMANCE WITH STATEMENT NO. 25 OF THE GOVERNMENTAL ACCOUNTING STANDARDS BOARD

This information is presented in draft form for review by the System's auditor. Please let us know if there are any items that the auditor changes so that we may maintain consistency with the System's financial statements.

Monroe County Employees Retirement System
