

Summary Annual Report To Members

December 31, 2010

Dear Retirement System Member:

The Retirement System, which is managed by the Monroe County Employees Retirement System Board of Trustees, is designed to help you meet your financial needs should you become disabled, retire, or die. Your employers also supports a Retiree Health Insurance Program for eligible participants, which is separate from the Monroe County Employees Retirement System.

The Retirement Board's fiduciary responsibility is to supervise the general administration of the System and invest its assets. The Board retains professional financial consultants and money managers to assist in fulfilling these duties.

This summary report has been prepared to give a brief overview of the Retirement System and how it operates. I hope you will find it useful and informative. However, a summary cannot cover all the details of the System, which is governed by the provisions of the County's retirement ordinance and the Retirement Board's official policies. Additional information about the System and its financial operations is available in the office of the Retirement Specialist or by visiting the Monroe County Employees Retirement System Website at: www.co.monroe.mi.us

Comparative Summary Results of the 2009 and 2010 Actuarial Valuation Reports

The Retirement System's financial objective is to establish and receive contributions which will remain approximately level from year to year and will not have to be increased for future generations of taxpayers. Contribution levels are expressed in terms of percent of the County's active member payroll.

To determine an appropriate Employer contribution level for the ensuing year and to gauge how the system's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel Roeder Smith & Company, conducts annual actuarial valuations.

These valuations are based on your System's past experience, information about current participation, financial markets, and assumptions concerning the System's future demographic and economic activity. The results of the December 31, 2010 valuation, based on the established funding objective, are summarized below:
